## Education

**BCA** - Bhaktapur Multiple Campus  
Tribhuvan University (2025 - Present)  
**+2 in Computer Science** - Chanakya College  
of Management  
Nepal Examination Board (2024 - 2025)

## Key Skills

### Technical

- HTML5
- CSS3
- Javascript
- React js
- Vite
- Tailwind CSS
- GSAP
- C
- Java
- Graphics Designing
- Git
- Markdown
- Python
- GDscript
- 3D Modeling

### Tools

- Github
- Figma
- Canva
- Supabase
- Firebase
- Vscope
- Godot
- MS Word
- MS Excel
- Adobe Photoshop
- Gimp
- netlify
- vercel
- Blender

### Other

- Responsive Web Design
- UI/UX Fundamentals
- Communication
- AI

## Professional Profile

Frontend developer focused on building responsive, user-friendly websites using HTML, CSS, and JavaScript. Experienced in developing personal and client-oriented projects, with React, Tailwind CSS, Git/GitHub, Figma, and GSAP. Interested in building practical web solutions for small businesses and expanding into full-stack development.

## Experience

### Indie Development

- Developed responsive websites and interactive web interfaces using HTML, CSS, and JavaScript.
- Built custom projects for practical use cases, including small-business websites and web applications.
- Implemented features such as product selection, shopping carts, forms, animations, and WhatsApp-based ordering.
- Used Git/GitHub for version control and deployed projects using Netlify and Vercel.

## Projects

### Chamaa Brownies | Website · [\[Live Demo\]](#) · [\[Github\]](#)

Online ordering website for a small cloud-kitchen brownie business.

- Designed and developed a responsive product showcase and ordering interface.
- Added quantity controls with a minimum order requirement.
- Built a cart and checkout flow collecting customer details, address, notes, and selected items.
- Integrated WhatsApp order generation so customers can submit their order directly through WhatsApp.

### Habit Tracker | Web App · [\[Live Demo\]](#) · [\[Github\]](#)

A web-based habit tracking application designed to help users build and monitor daily habits.

- Built a responsive habit-tracking interface using HTML, CSS, and JavaScript.
- Implemented habit creation, tracking, and progress management features.
- Designed the interface with a focus on simplicity and ease of use.

### Daydream Parkour | Game · [\[Live Demo\]](#)

2D parkour game developed during Daydream Kathmandu 2025 game jam.

- Developed gameplay mechanics and interactive elements using Godot and GDScript.
- Collaborated with a team to design, build, and refine the game.
- Won **1st place through team voting** at Daydream Kathmandu 2025.

### Library Management System | Web App · [\[Live Demo\]](#) · [\[Github\]](#)

A Javascript based library management application for managing books, students, and library operations.

- Developed a library management system using Javascript.
- Implemented features for managing books, users, issuing, and returning books.
- Designed the application with structured components to organize library operations.
